Status of the U. S. Bureau of Land Management's program for oil shale

Mitchell Leverette, Director, Solid Minerals Division

United States Department of Interior, Bureau of Land Management

Mr. Leverette will report on the status of the U. S. Department of Interior's Bureau of Land Management (BLM) program to develop unconventional petroleum reserves in the United States, with particular focus on oil shale. He will report on BLM's review of RD&D leases submitted this year, and on the future plans with respect to oil shale development.
